

LABCOLD MODEL PHARMADRAWER01

Divided Pharmacy Drawer System

- Easy glide mechanism
- Ventilated for maximum air circulation
- Retro fit
- Can be used in conjunction with shelves
- Maximises storage space
- Aids stock rotation
- Easy to install

Labcold divided drawer system is designed to ensure that stock can be kept neatly and in optimum conditions and ensure easy stock rotation.

Labcold's unique easy glide pharmacy fridge drawers ensure that stock can be easily seen and retrieved. The dividers help to prevent different products from becoming mixed or confused. Not only does this save time because you can immediately select the correct product, but it aids patient safety by making it easy to keep medicines neatly and in date order.

These drawers are available to fit the larger pharmacy fridges - RLDF0505 (maximum 3 drawers) and the RLDF1005 (maximum 5 drawers) - and can be purchased individually, and retro fitted, allowing you to have a mixture of shelves and drawers depending on the individual requirements of your pharmacy.

SPECIFICATIONS - PHARMDRAWER01
